

## **Sungrow SBH Battery Accessory for SH5/6RS, SH5/10RT Connection**

When connecting Sungrow SBH Battery Stack to SH5/6RS or SH5/10RT series products, the battery connector on the inverter side shall use the 10mm<sup>2</sup> type instead of the original 6mm<sup>2</sup> one included in the inverter package or originally installed.

These 10mm<sup>2</sup> battery connectors are provided in the SBH Accessories Box with serial numbers greater than S2405246485.

For the installation of SBH batteries with Sungrow SH5/6RS or SH5/10RT series products, please check the SBH Accessories Box serial number (SN). If the SN is less than S2405246485, please contact your supplier or Sungrow service team directly for this part.

If you have any further questions, please contact the Sungrow service team at:
